DEMO DERBY GENERAL INFORMATION & REGULATIONS

FOREWORD

The event is intended to provide safe competition and enjoyment for the participants and spectacular entertainment for the patrons, as well as advertising exposure for sponsored cars in this well patronized event. All drivers must comply to the Club rules where they are competing.

Your car must make solid contact with another mobile vehicle at least every two minutes **after green light**. The last car MOBILE may be deemed the winner, PROVIDED that in the opinion of the Stewards and Judges, all rules have been observed. The Stewards and Judges decision is final and no correspondence will be entered into.

Any vehicle which is stationary for any reason for more than two minutes is subject to disqualification, except if the event is stopped temporarily for safety reasons. If given the black flag, a driver must immediately cease driving.

Only the track must be used, not the infield. The track may be watered before the start of event.

Waivers **MUST** be signed and drivers must be covered by insurance.

SALVAGE

It is the responsibility of each entrant to remove their vehicle from the Speedway premises within 24 hours of the event. Any vehicles left on Speedway property overnight are at the owners risk. Cars not removed within 24 hours become the property of the Promoters and will be disposed of in any manner they select.

CLOTHING

Overalls must be non-flammable and in good, clean condition, preferably of wool or better and are mandatory. **POLYESTER OR NYLON CLOTHING NOT TO BE WORN.** Protection from neck to ankle to wrist. Covered footwear. Gloves must be worn and must be of wool or better.

HELMETS

Helmets to be current Australian standards (1988) **MINIMUM** and be in good condition and correct size for driver. **Helmets must NOT be removed until entire event is complete.** Helmets must be presented at vehicle inspection.

EYE PROTECTION MUST BE WORN. Lenses of spectacles/sunglasses, if worn, and/or helmet visor to be of non-splinterable material.

SAFETY AND SIGNALS

Race control lights must be observed. Flags and signals will be explained at drivers' briefing. Any driver failing to obey these signals or a direction given by an official will be disqualified. If given the black flag, driver must **IMMEDIATELY** cease taking part in the event. Any driver who deliberately drives into the driver's side door of another car or the roof of an overturned car will be disqualified immediately. **RED LIGHT** means immediate stop - do not move at all.

INTERPRETATION OF RULES

All cases of dispute as to the correct interpretation of these rules or changes for safety shall be decided by the Technical Machine Examiner, Steward and/or Promoter, whose decision is final. No prizes will be given to anyone failing to comply with the rules. Cars will be disqualified without notice if rules are not adhered to.

PROCEDURE

Competition is limited to the track proper. Driving off the track and using the centre field is subject to disqualification. A rolling start is required and cars may traverse the track in either direction **AFTER THE GREEN LIGHT**, and in a forward or reverse mode.

GENERAL

Drivers' Brief may be at 7pm in the pits or during a track grade during the night (as advised on the night). All drivers **MUST** attend driver's brief. Drivers are required to be in the pit area adjacent to their cars 30 minutes prior to the event for any final briefing. Any driver failing to attend the briefings or who is thought to be affected by alcohol or drugs will be excluded from the event and the entry fee forfeited.

NO ALCOHOL IS TO BE CONSUMED FOR AT LEAST 24 HOURS PRIOR TO THE EVENT.

The Promoter reserves the right to abandon the event if they consider that insufficient entries have been received by the closing date, or postpone the event to a later date if they should deem this necessary. The Promoter also reserves the right to accept or reject any entry, or to alter the event to suit entries.
